14-20 Robson Street, Clontarf QLD 4019, Australia

Now Made in Australia

The Subterranean

This water storage solution is ideal for underground sports stadiums and car parks.

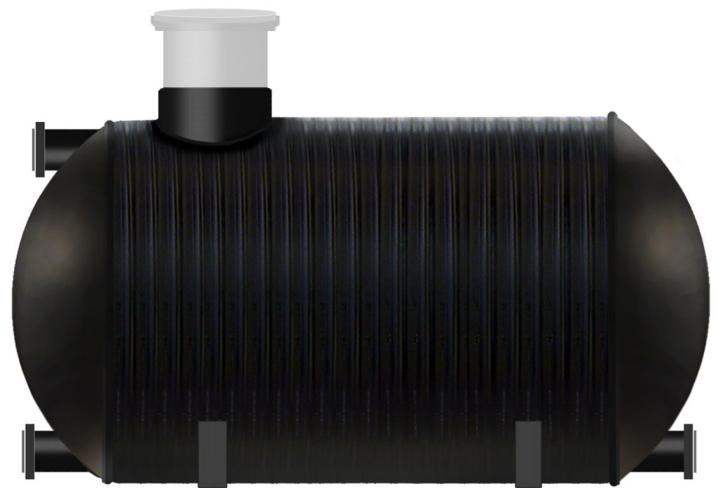

'I Beam' double wall profile gives great compression strength.

Large cover depths.

Custom lengths are available, allowing for easy on-site handling.

Custom fittings permit multiple connections.

Sizes range up to 2200mm in diameter.
Manhole and access shaft can be customised to suit any depth.

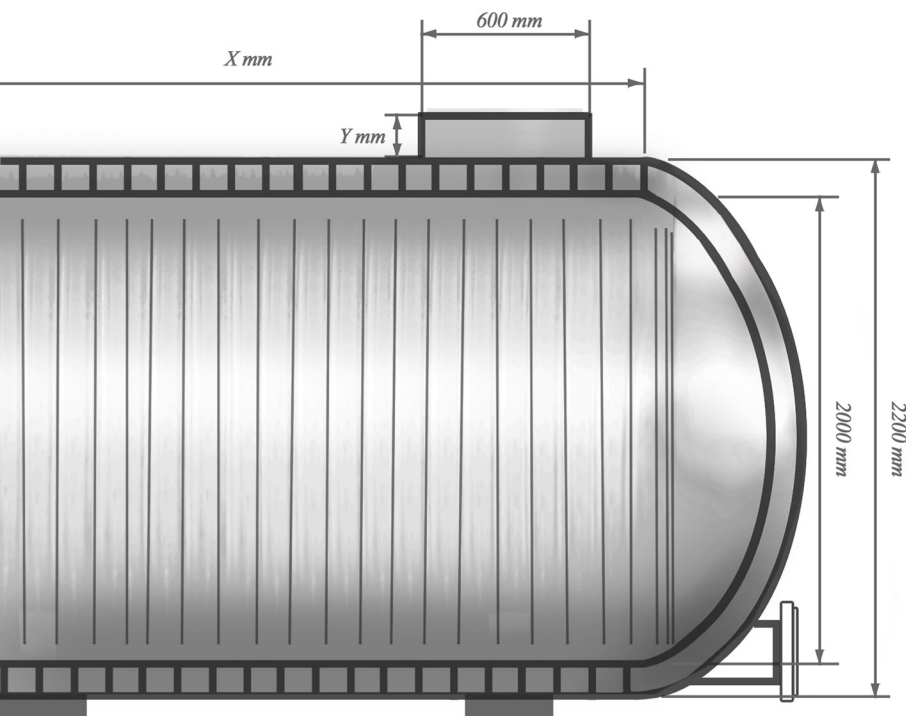

Features

- Long lasting - 100 year asset life
- Lightweight - easy to install
- Recyclable
- Fully UV stabilised
- Rainwater harvesting
- Storm surge water tanks
- Diesel tanks
