Cruiser Pool

A modern take on the classic rectangular Pool, featuring with both built in steps and a sitting ledge.

Made from food grade polyethylene containing UV inhibitors, it's light weight yet extremely robust to suit the harsh Australian conditions.

Designed for use as a above ground or partly buried pool,the Cruiser Pool can be landscaped into most backyard situations, with either decking around it or built-up landscaping using retaining sleepers.

Can be supplied with or without the filter kit package and ladder.

Polyworld is committed to provide the most practical, strong, and long-lasting products possible. Your Polyworld Poly Pool is fully warranted against manufacturing faults and material defects, for a full 10 years, provided installation is carried out correctly.

*Must sit on a concrete slab - minimum size- 4200mm length x 2500mm width x 100mm thick with reinforcing mesh.

*The Frame will be assembled by the driver.
